

Energy Insurance

Hamilton Select Insurance Inc.'s Energy division targets small to mid-sized accounts in the excess and surplus (E&S) space, including hard-to-place and distressed accounts.

The Energy division targets contractors, exploration and production, manufacturers, distributors, professional services and renewables within the energy industry. Accounts falling into the hard-to-place and distressed space typically include accounts with losses, challenging classes, difficult venues, non-renewals or new ventures.

We provide General Liability, Professional Liability, Time Element Pollution and related coverages on both a primary and excess basis. Our excess coverage is available supported or unsupported and can include underlying auto liability and employers liability. Our underwriting team provides a solution that is custom tailored to meet the needs of the risk.

Policy Structure

- Primary Capacity: \$1,000,000 Occurrence / \$2,000,000 Aggregate
- ISO Form: GL (CG 00 01)
- Professional Liability available
- Time Element Pollution available (up to 30 day discovery, 90 day reporting)
- Excess Capacity: Up to \$5,000,000
- Follow form excess over occurrence or claims made in a lead or excess of lead position, supported or unsupported.
- Minimum attachment point of \$1,000,000

Territories
